HIGH QUALITY STAIRLIFTS

Straight Rail Stairlift **Elite**

You don't have to be limited by stairs anymore, so enjoy the home you love, upstairs and down!

- **Safety**

With adjustable seat height and low footrest height, you will be totally at ease when using the lift.

Rated user weight capacity: 28.5 stone

- **Swivelling seat**

The seat swivels at the top landing for easy entry/exit. At time of installation, the seat can also be set to swivel at the bottom of the stairs.

- **Quiet and smooth operation**

The soft start/stop feature combined with the rack and pinion drive provide a smooth ride which is exceptionally quiet. The covered gear rack gives you a clean and attractive rail.

- **Adjustable**

Adjustable space between the armrests.

- **Compact**

The seat, armrests and footrest all fold up for a tight park position.

- **Battery powered**

The lift uses two 12-volt batteries that are continuously charged from the household power supply when the lift is parked at the top and bottom of the rail. The Elite features strip charge contacts for more flexibility when parking. You have access to your upstairs and downstairs, even if electrical service in your home is interrupted.

The two wireless call/send controls make installation simple and clean with no wires running along the wall.

- **Obstruction sensor**

The footplate and carrier safety sensors stop the lift if the slightest obstacle is in the way.

- **Comfort**

Contoured seat for maximum comfort. The seatbelt is retractable as not to be in the way.

- **Clean and simple rail**

The simple, unique design of the rail hides all mechanical components.

● Application details

Straight Rail **Elite**
Stairlift

Homeadapt's Gold Warranty

- five years for major components and two years on parts
